Subject: TBP phone

Hey you,

Our phone is ready to go. You can check Audix voice mail messages by dialing 532-2300. You will be asked to dial our office phone # (532-3045) and then to dial the passcode. Our passcode is tbpconv. I put a new host message in the system as well, "National Convention Planning Office." All it asked for was a name. The mail checking method is straightforward after you dial 532-2300 or 22300. Just follow the directions.
